SUMMARY

Full Stack Developer with **4 years of experience** building scalable **Java Spring Boot microservices** and **cloud-native applications**. Strong expertise in **distributed systems**, **event-driven architecture**, and **RESTful APIs**, delivering measurable impact including **70% reduction in manual effort** and **90% improvement in processing efficiency**. Hands-on experience in **System Design (HLD, LLD)**, **Design Patterns**, **microservices architecture**, and **high-throughput systems**. Proven ability to build **low-latency, fault-tolerant backend systems** in **Agile/Scrum environments**.

EXPERIENCE

CGI India

Full Stack Developer – Bell SmartHub Team (Specialist)

Bangalore, India

06/2022 – Present

Bell Canada – SmartHub Platform

06/2022 – Present

- **Reduced manual operations by 70%** by developing an automated **data extraction pipeline** using Selenium and Django-based APIs, improving data accuracy by 80%.
- **Improved processing efficiency by 90%** by architecting a **distributed microservices pipeline** using JSON messaging, **AWS EC2**, and **AWS Lambda** for event-driven processing.
- **Decreased incident response time by 70%** by designing a **real-time event-driven notification system** using asynchronous messaging and **Multithreading** for ITSM workflows.
- Designed scalable **Spring Boot microservices** applying **LLD, HLD, and design patterns**, ensuring **high availability** and **fault tolerance**.
- Developed high-throughput APIs integrating with ServiceNow GraphQL APIs, processing **2000+ records/hour** using **JPA/Hibernate**.
- **Improved API response time by 60%** through schema design, indexing, and performance tuning of relational databases.
- Designed **asynchronous workflows** using **AWS Lambda**, improving scalability and reducing peak load.
- Implemented **logging, monitoring, and observability**, reducing production issue resolution time.
- Developed secure APIs with **Spring Security**, RBAC, validation, and audit logging.
- Built responsive **React.js dashboards** with real-time analytics for operational insights.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript
- **Frameworks:** Spring Boot, Spring MVC, Spring Security, React.js, Django
- **Cloud & DevOps:** AWS (EC2, Lambda), Docker, Jenkins, CI/CD
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Systems & Messaging:** Apache Kafka, Distributed Systems, Event-Driven Architecture, Multithreading
- **Tools:** JUnit, Selenium

EDUCATION

Indian Institute of Information Technology, Senapati

Bachelor of Technology in Electronics and Communications Engineering

CGPA: 7.66 / 10.0

Imphal, India

08/2018 – 05/2022

AWARDS & INTERESTS

- Received **1 Silver (2026) and 2 Bronze Awards (2024, 2025)** at CGI for backend and automation contributions – [Certificate](#).
- Interests: System Design, Backend Engineering, Problem Solving, Table Tennis, Cricket.
